

Special Symposium

**From biology to treatment in advanced
pancreatic and gastroesophageal cancer**

Introduction

- Knowledge of tumor biology is rapidly increasing
- Translation into treatment is slow

Session set up

- Pancreatic cancer
 - Markers and biology (M. Tempero)
 - Translation into practice (S. Cascinu)
- Gastric cancer
 - Markers and biology (M. Ebert, M. Lutz)
 - Endpoints which use tumor biology (A. Roth)
- Implication for clinical practice (R. Labianca)
