For Oncologists at the Point of Care

2014 ESMO Congress, Madrid

ESMO COWG Special Session

27 September 2014

The ESMO Community Oncology Working Group is looking for new active members!

The Community Oncology WG works and lobbies within ESMO for those members who spend most of their working time with patients, outside of academic (bench) research, and usually treat patients with a wide range of tumours.

Why should YOU join our Working Group?

- ✓ because you are a community oncologist and want your professional society to help you even better with your daily workload
- ✓ because ESMO matters to you and you want to be heard in your professional society
- ✓ because you have ideas on what ESMO can do for you
- ✓ because you want to network in an active peer group of fellow ESMO oncologists (yes, we are actually fun!)

Interested? Questions?

Please contact

Roberta Vecchi at ESMO: roberta.vecchi@ESMO.org

or

Robert Eckert, WG Chair: robert.eckert@onko-esslingen.de

We look forward to your input – by email, in person, or just write on the back of this flyer and hand it in at the exit after the session! Please give us your contact email address if you want us to get back to you!

Please kindly share your comments with us and leave the flyer on your chair.

We will take care to collect them!

.....now join us for a tapas lunch!!!

FOYER IBIZA

12:30 – 13:30

Thank you!!
